Identify our innate

- Strength
- Weakness
- Abilities
- Personality.

- To build ourselves and strive for our betterment

What is DMIT?

Full Form of DMIT

DMIT stands for Dermatoglyphics Multiple Intelligence Intelligence Test - a revolutionary assessment tool

Dermatoglyphics

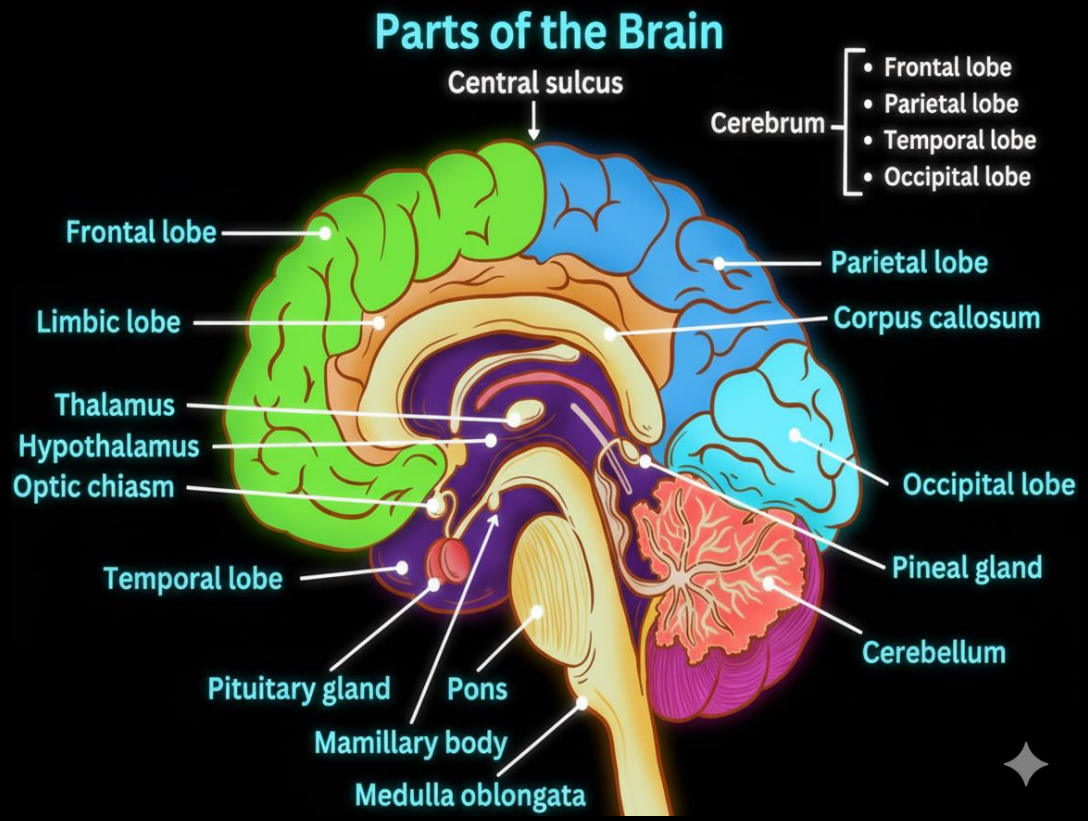
Study of fingerprints

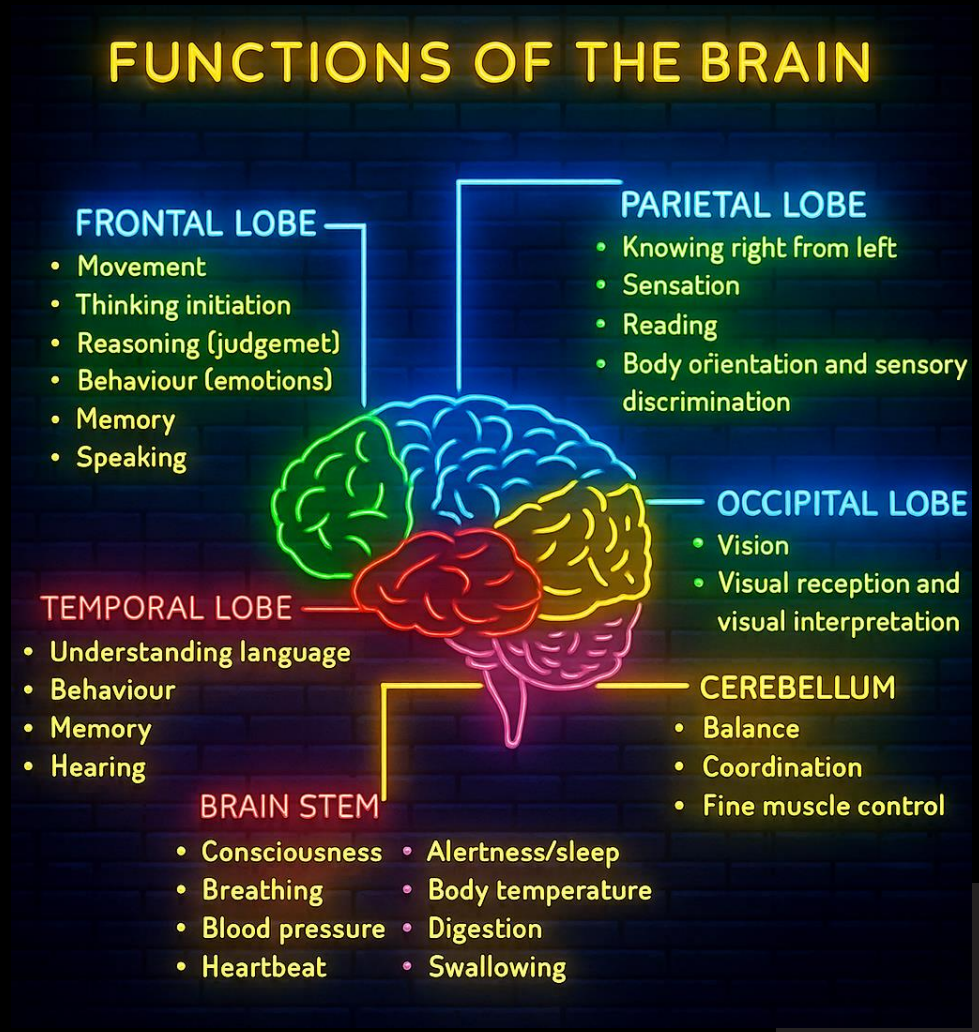
Multiple Intelligence

8 different forms of intelligence proposed by Howard Gardner

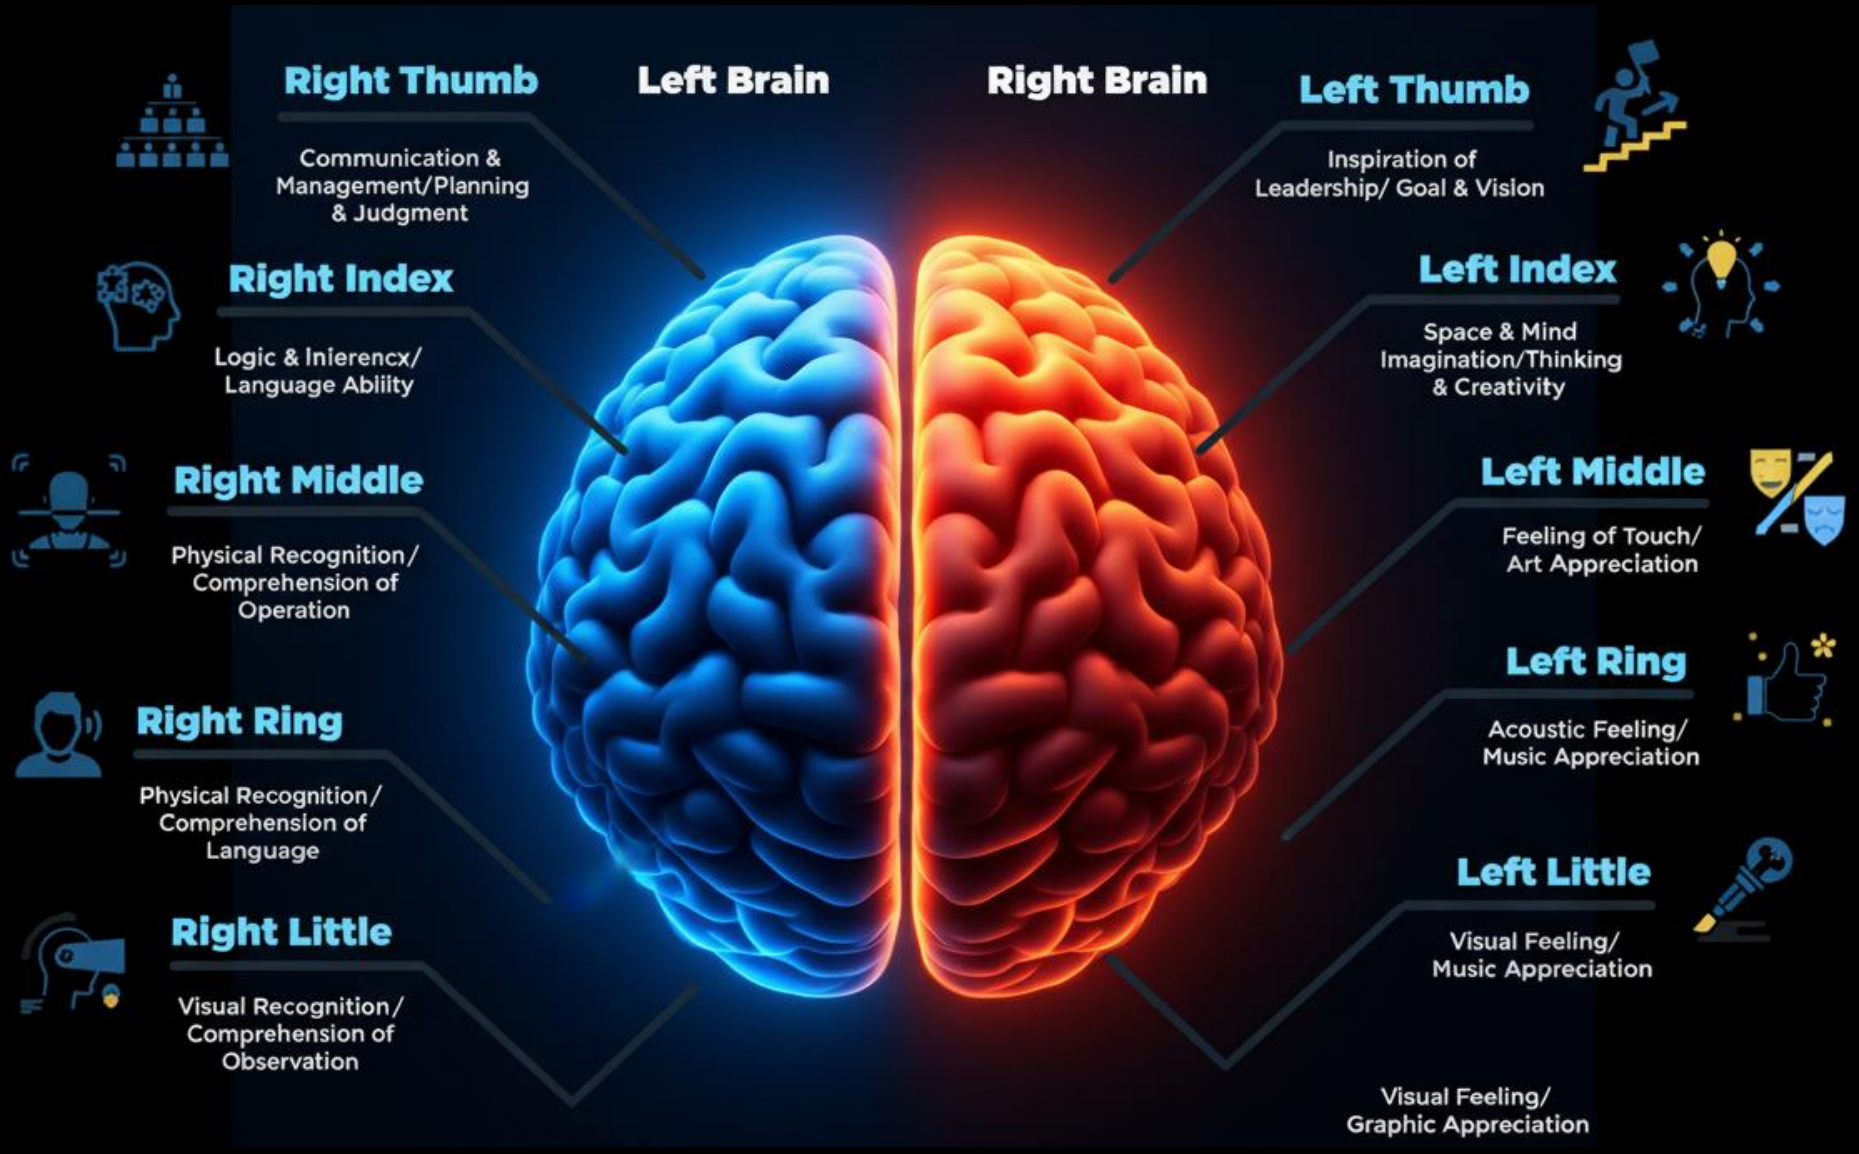
WHAT IS RESPONSIBLE FOR EVERYTHING?

IT IS THE BRAIN





BRAIN FINGER CORRELATION



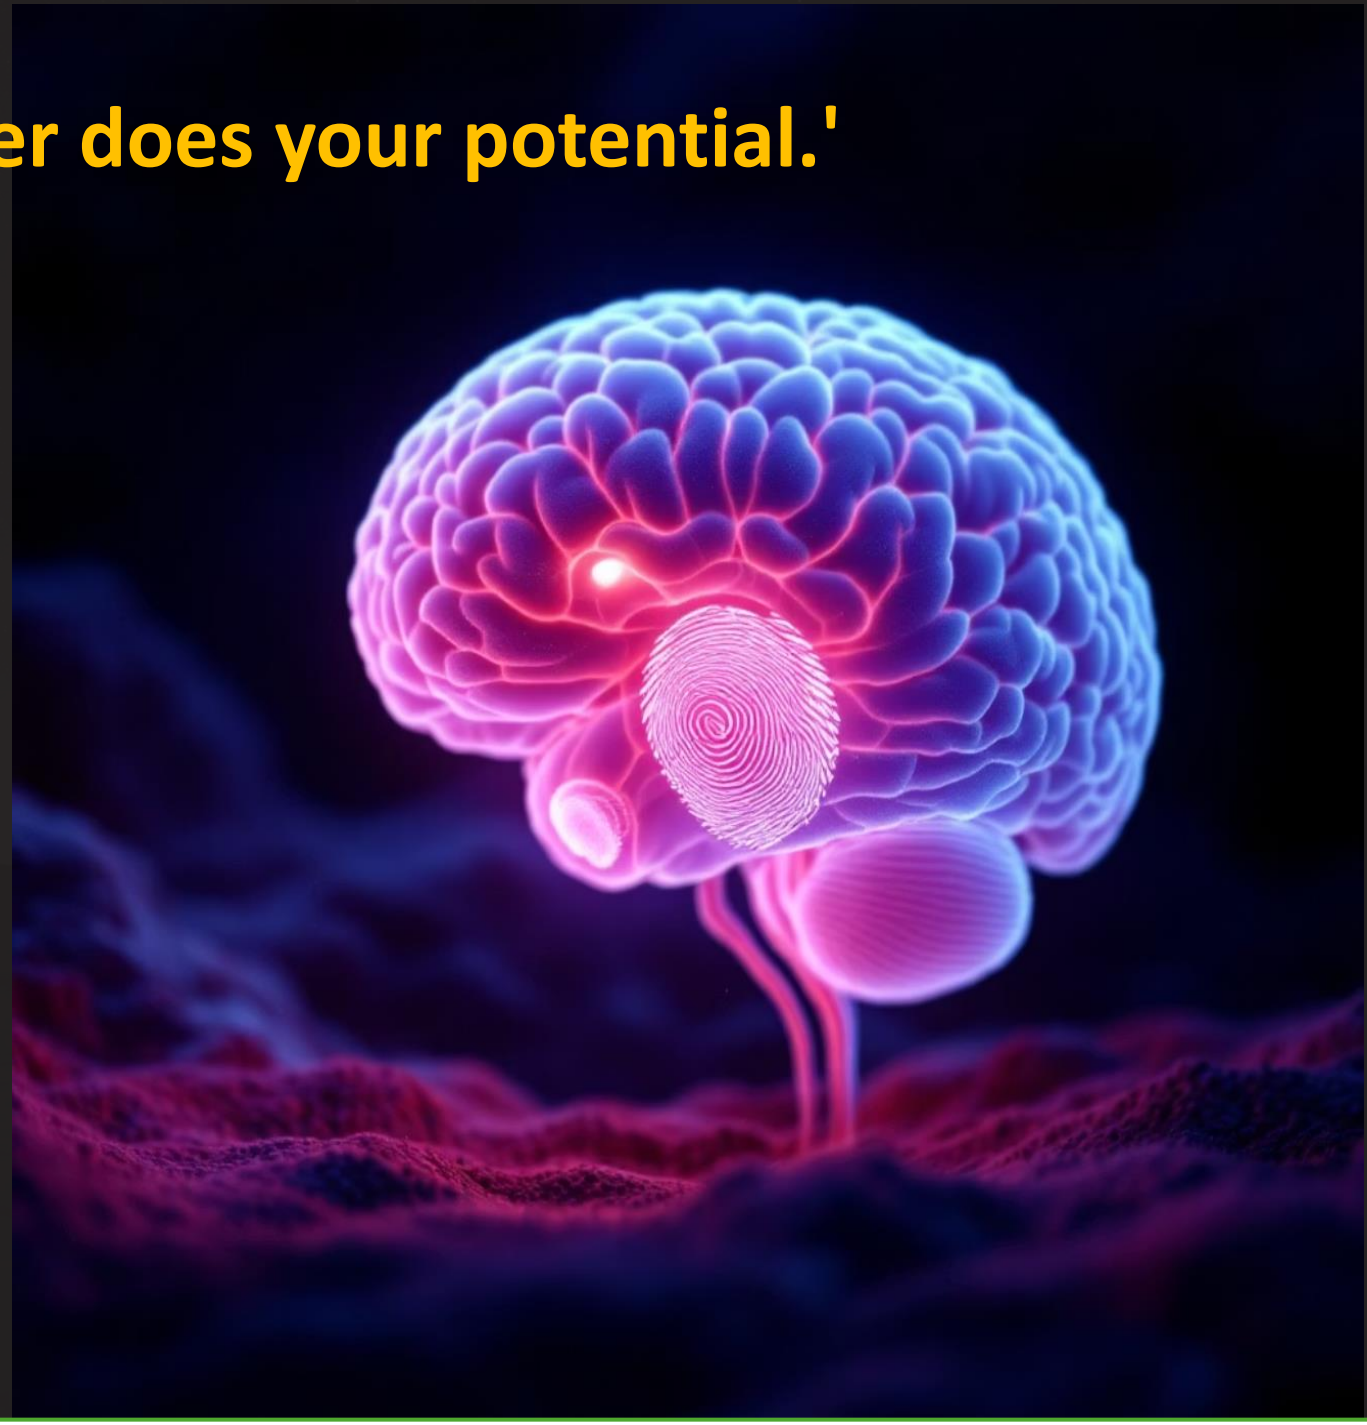
'Fingerprints never lie - neither does your potential.'

6 - 7 Weeks
Small swellings on fingers of foetus

10 -13 Weeks
Outlines of fingerprints form

13 - 21 Weeks
Unique patterns established, reflecting cognitive blueprint

24th Week
Your fingerprints are formed and never change change throughout life



- Each finger corresponds to specific brain lobes and intelligence types.

Components of the DMIT Report

QUOTIENTS

Distribution of IQ, EQ, CQ, AQ

BRAIN DOMINANCE

Left/right brain hemisphere activity

MULTIPLE INTELLIGENCE INDEX

Distribution analysis of 8 intelligences including interpersonal, musical, and naturalist

PERSONALITY ANALYSIS

Personality type - Dove, Eagle, Owl, Peacock

LEARNING STYLES

Learning styles - Visual, Auditory, Kinesthetic

SWOT ANALYSIS

Analysis of Strength, Weakness, Opportunity, Threat according to personality type

BRAIN LOBES AND FUNCTIONS

Distribution of brain lobes and their functions

PROFESSIONAL CAREER PREFERENCE

Preferences based on Multiple Intelligence
